

“Help, My Marriage is Drowning!”

When I walked down the aisle to become Rufino's bride we were full of promises and hope. Now our marriage was sinking like a boat with holes in it. This was hard for me because I thought our marriage would be different.

We had four children. Our boat was being weighed down by work, bills, health issues, and financial difficulties. I put my husband last on my priority list and our marriage began to suffer.

It seemed everything was an argument. Our boats were no longer on the same course. I wanted our marriage to get back on course. But I had doubts about attending the Retrouvaille program. I kept replaying in my mind all the reasons I should not go.

Finally, we did attend the Retrouvaille weekend and Post Sessions. It changed our lives. Our children were the first to notice a difference in us. Then other family members started to see the love that was there the day I became his bride. There is no magic wand to fix anything in life including marriages. But, this program gave us the life preserver our marriage needed.

Thank you for teaching us the tools we needed to keep our family together.
